The 14th Scientific Meeting of the Association for Ocular Pharmacology and Therapeutics (AOPT) is being held March 7th -10th (2019) in New Orleans. The topic of this year's conference is **Next Generation Ocular Therapeutics**. Our Keynote Speaker is Casey Kopczynski, PhD, Chief Scientific Officer and Co-founder of Aerie Pharmaceuticals, Inc. who will present: "Between a ROCK and a Hardened Meshwork: The Discovery and Development of Rhopressa."

The meeting agenda is packed with exciting new information set in thirteen sessions as well as special sessions with young investigators presenting.

The Association for Ocular Pharmacology and Therapeutics is a global not-for-profit organization for scientists and individuals from all disciplines related to ocular pharmacology and its therapeutic applications. AOPT has a diverse, multi-national membership composed of preclinical and clinical scientists, students, and healthcare professionals. Members are from academic institutions, pharma and biotech industries, device companies, clinics and private practice.

AOPT's mission is to serve as a global forum and network for the publication, dissemination and exchange of information and knowledge on treatments of eye diseases, from basic and clinical ocular pharmacology and therapeutics to related disciplines such as pharmacokinetics and dynamics, metabolism, translational research, safety, drug delivery, and pharmaceuticals.

This conference brings together those individuals at the forefront of scientific advancement related to ocular pharmacology and therapeutics. The agenda is rich in provocative presentations that we hope stimulate productive discussions. What an opportunity to join colleagues in a discussion of the **Next Generation Ocular Therapeutics** than coming to New Orleans, The Big Easy.

Attached is a Sponsor Book that provides information on sponsorship level and opportunity for an exhibit booth. We hope to see you in New Orleans.

Thomas Yorio, PhD, FARVO
President, AOPT

ATTENDEES

The AOPT Scientific Meeting is an international conference focused on bringing together clinicians and other eye care professionals, academic and industry scientists from around the globe to share their exciting new discoveries related to the treatment of ocular diseases. We anticipate having attendees coming from 19 different countries, including physicians, researchers, professors, ophthalmologists, and optometrists.

WHY SUPPORT AOPT 2019 ?

The AOPT Scientific Meeting has successfully been held since 1993. It is the biennial meeting of a global association devoted to basic and clinical ophthalmic pharmacology and therapeutics in its broadest interpretation. If your business, brand or organization is related to ocular pharmacology and treatments, the AOPT 2019 Scientific Meeting is the place and time to meet professionals from all around the world.
